Every weekend, as I attend events throughout New Hampshire's First Congressional District, I hear the same concerns. Families are getting squeezed and need relief.

I have helped pass a number of bills through the House of Representatives, including legislation which provides:

- ✓ Tax cuts for the middle class by giving rebates of up to \$1,200 to families and more for families with children. The bill protects over 100,000 New Hampshire families by exempting them from the Alternative Minimum Tax and provides additional tax cuts for small businesses.
- ✓ An increase in the minimum wage for the first time in 10 years.
- ✓ More help with home heating bills by increasing funding for the Low Income Home Energy Assistance Program (LIHEAP), which helps more than 30,000 families in New Hampshire.

I have introduced several original pieces of legislation, including:

- ✓ The Middle Class Assistance Act, which provides tax credits to offset the cost of property taxes, home heating oil, and college tuition.
- ✓ Expanded health care coverage for children through the successful State Children's Health Insurance Program (SCHIP).

I know that people need help right now, so I'm holding Middle-Class Forums across the district to help show families how they can save money in a tough economy. Experts will discuss how to find help for mortgage problems, reduce utility bills, lower gas costs, and save on food and leisure activities.

I will keep working to ease the burden on the middle class. Working together, we will find solutions in Washington D.C. and in New Hampshire.
